

Week starting: 29th June 2020

Hi Year One Home Learners Parents and Carers

We hope you are all keeping well.

We appreciate how hard it is to juggle your time at home and support your child's learning. Therefore, to help prioritise the learning this week, we have listed below the most important activities/learning for your child to focus on.

Please do not worry if you do not get through all of the home learning activities we are uploading onto the website. Each family has a different set of circumstances, with some having more time to home school than others.

We hope that this helps you organise and plan your child's learning more easily.

- 1) Read - The phonics from the beginning of English power points each day.
- 2) Write - Write a descriptive sentence using 'because' to explain.
- 3) Maths - Recognise the value of coins and notes.

So that the teachers can see the wonderful work that your child is doing, please can you upload one piece of English to Purple Mash (see instruction sheet in Whole School Resources folder on the website) each week and any other piece of learning that your child might be particularly proud of. If possible, please try to upload the final piece of English work, which is usually set for Thursday. However, this week it is Wednesday's work which is descriptive sentence writing.

Many thanks
