

Go on a shape hunt around your house. Can you find the following 3d shapes? Draw and write what you find. Count the number of FACES on each shape.

3D Shape Search!

Can you find a...

sphere?

Number of faces:

cone?

Number of faces:

cylinder?

Number of faces:

cube?

Number of faces:

Cuboid?

Number of faces:

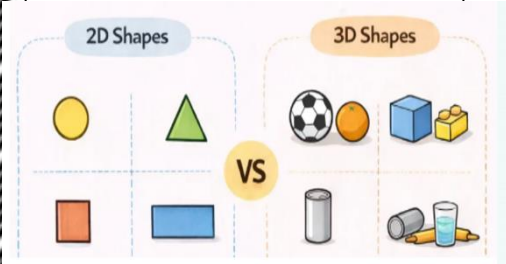

pyramid?

Number of faces:

Important words

A 2D shape is flat like a picture, and a 3D shape is solid and you can pick it up.

Faces- the flat part on a 3D shape

Helpful note:

These are what 3D shapes look like in real life.
