

Maths homework – confident 15.5.26

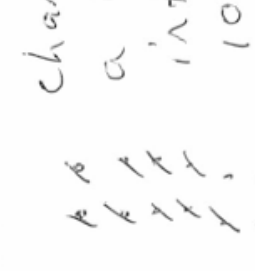

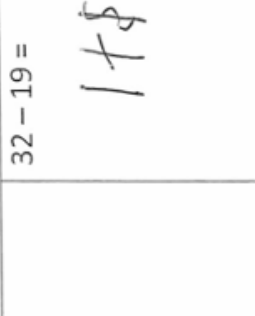

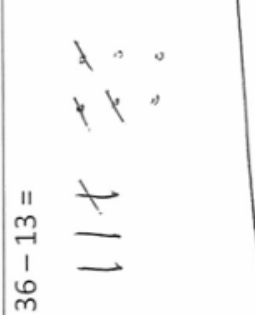

Circle the symbol to make sure you do the correct calculation!

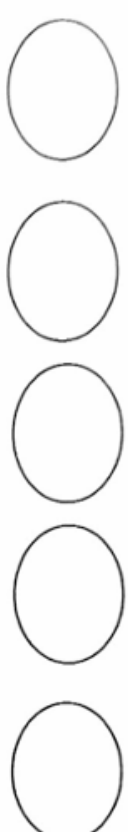

(Parent note – see over the page for calculation strategies)

How many questions can you answer in 20 minutes?

$12 \div 2 = \underline{\quad}$	$71 + 7 = \underline{\quad}$	$5 \times 5 = \underline{\quad}$	$58 - 17 = \underline{\quad}$
$47 + 21 = \underline{\quad}$	$92 - 15 = \underline{\quad}$	$10 \times 8 = \underline{\quad}$	$10 \div 5 = \underline{\quad}$
$38 + 15 = \underline{\quad}$	$2 \times 5 = \underline{\quad}$	$30 \div 10 = \underline{\quad}$	$52 - 17 = \underline{\quad}$
$48 - 22 = \underline{\quad}$	$18 \div 2 = \underline{\quad}$	$47 + 16 = \underline{\quad}$	$5 \times 10 = \underline{\quad}$
$26 + 41 = \underline{\quad}$	$47 - 8 = \underline{\quad}$	$5 \times 7 = \underline{\quad}$	$40 \div 5 = \underline{\quad}$

Methods for calculations

addition	subtraction
$22 + 13 = 35$  $4 + 10 + 6 =$ look for the number bond to make ten first (4 + 6)	$36 - 13 =$  $100 - 98 =$ numbers are close together so count up from 98 to find the difference
	$32 - 19 =$  change a ten into 10 ones

multiplication (practice counting in 2,5,10s)	division
$3 \times 5 =$ 3 lots of 5 (count in 5s using 3 fingers) draw an array: 	$20 \div 5 =$ 20 shared between 5 Draw 5 groups:  share out 20 (dots) How many in each group?
