

All about Australia

twinkl

Where is Australia?

Where is the United Kingdom?

Australia

Australia is the world's sixth largest country.

Around 24 million people live in Australia, which is not that many considering how large it is! By comparison, 65 million people live in the United Kingdom.

However, you could fit the United Kingdom into Australia 22 times!

Australia

London

The name Australia means 'south'. Australia is in the southern part (**hemisphere**) of the world.

8988 miles

It would take you almost a whole day to fly from the United Kingdom to Australia.

Perth

Climate

Australia's seasons are the opposite to the seasons in the United Kingdom. When the UK is in winter, Australia is in their summer and when the UK is in summer, Australia is in their winter.

Mostly, summertime is very hot and dry. Summer lasts from December to March. People celebrate Christmas on the beach!

Climate

In the desert, it doesn't rain very much but in the north of the country, it can rain lots. They have a wet season where heavy rains flood the land. This is called monsoon season.

New South Wales, Victoria and Tasmania are the coldest areas in Australia and they usually get snow in the winter.

Physical Features

Most of Australia is made up of desert, called the Outback.

Temperatures in the Outback range from as high as 50°C on summer days, to -10°C during winter nights.
