

Date:

- I can draw lines of different lengths.
- I know that I need to start drawing a line from the 0 on the ruler.
- I know that I finish drawing the line when I get to the line underneath the number of cm I need.

Draw a line 7 cm long - label it **a**

Draw a line 12 cm long - label it **b**

Draw a line 8 cm long - label it **c**

Draw a line 11 cm long - label it **d**

Draw a line 5 cm long - label it **e**

Draw a line 16cm long - label it **f**

Draw a line which is 3 cm longer than line **a**. How long is it? \_\_\_\_\_

Draw a line which is half the length of line **f**. How long is it? \_\_\_\_\_

What is the total length of lines **b, d** and **f**? \_\_\_\_\_

Can you draw a line which is 8cm shorter than the **second** longest line? How long is it? \_\_\_\_\_

AA
