

First Flight

This reading comprehension is about inference. It means how you can use the picture to make sensible predictions about what is happening without being directly told.

How are the owls related?

Which owl is about to take its first flight? How do you know? (Remember to use 'because' in your answer)

How does the young owl feel about flying?

What might it be thinking? Add a thought bubble to the picture.

Is the older owl worried?

What advice might the older owl give to the younger one?

If trying new things is scary, does that mean you should never try them?
