

Colourful Chameleons

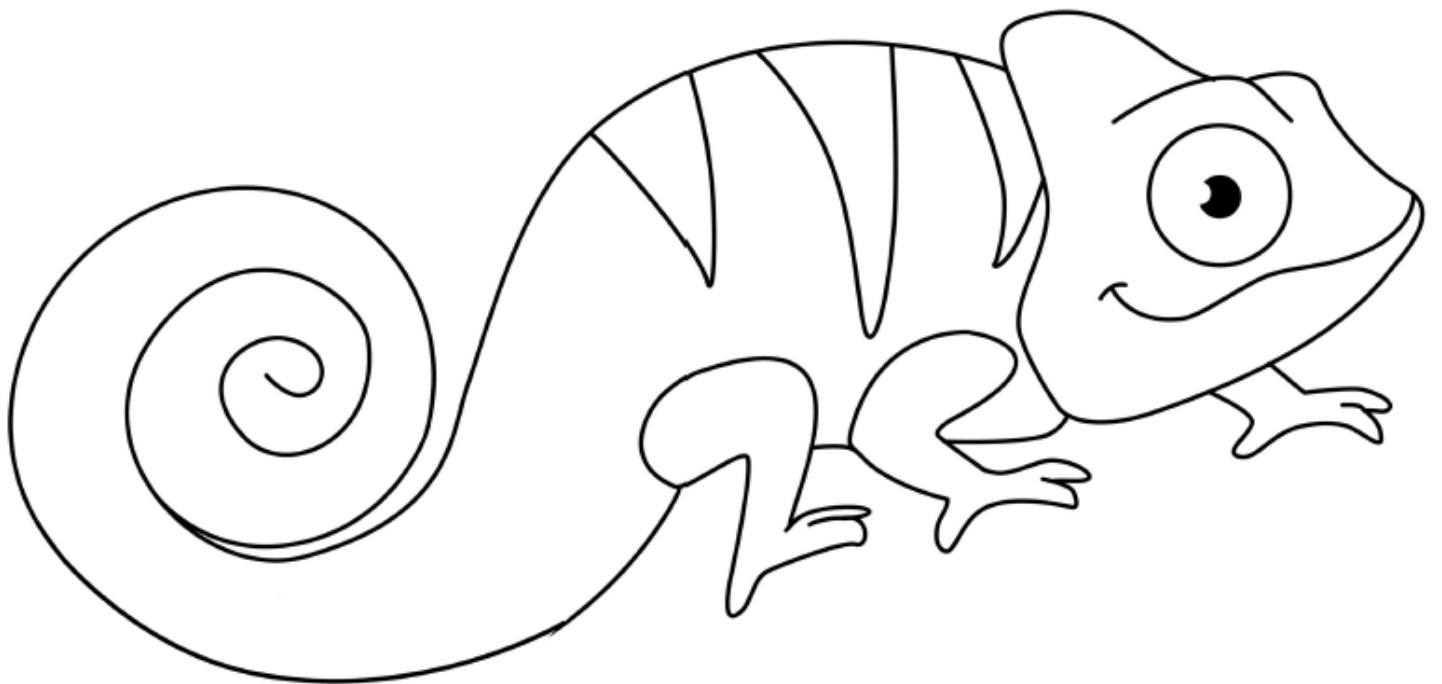

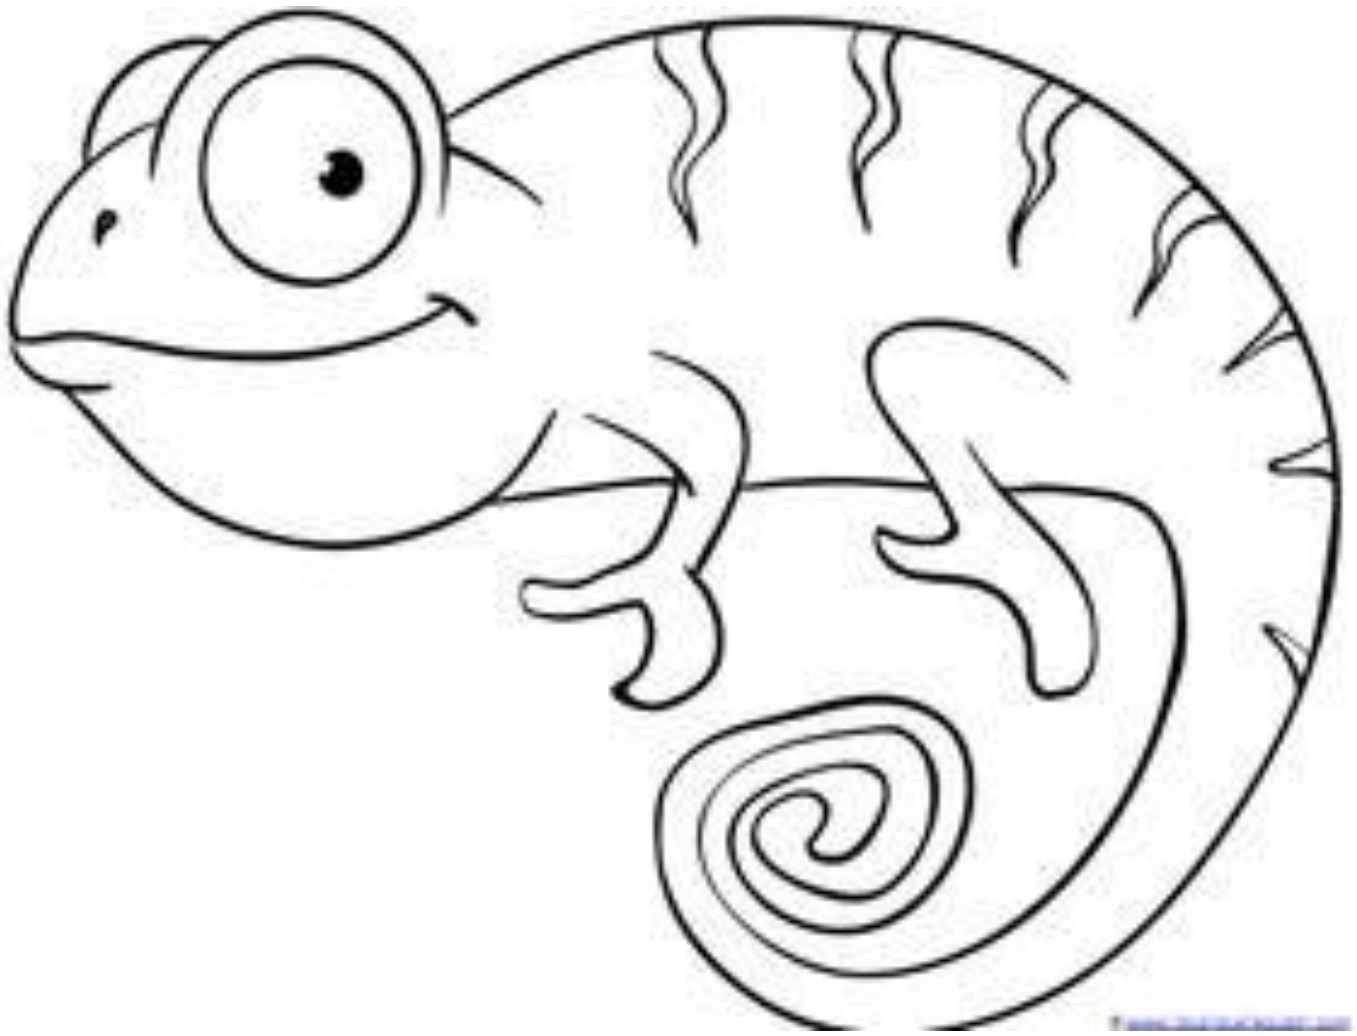

Pencil Drawing

Draw your chameleon on a piece of paper - press very lightly in case you need to rub out a little! Use the templates below to help you.

Background

Paint in a branch behind your Chameleon and then use watercolours (or pencils) to 'colourwash' your background.

Colour

Use watercolours or oil pastels to colour in your colourful chameleon.

Blend colours for different effects or use salt to soak up some of the colour. You can decorate using stripes, spots, fade or any other pattern.

Have a look at the completed pictures at the end for some ideas.

Outline pencil lines with sharpie or black felt pen..
