

18th May 2020

Dear Sycamore Class

It was lovely to speak to so many of you on the phone last week and catch up on your news.

I was in school at the beginning of the week and then on the computer for most of the rest of it - planning work for this week and 'marking' your online work. You have all been so busy, well done.

Mr Cruickshank has been busy in the garden putting down a new patio. I have been excited to see that some of the slabs have fossils in them. Can you see one in the photo?

The other exciting thing in the garden this week is the sunflower I planted which was meant for school. Look how tall it is now! And lots of flowers are beginning to come out which cheers me up!

We had a lovely socially distanced street party last week for VE day which was nice to see the neighbours and we played music and danced in the driveway! Then I spent the weekend sewing some scrubs suits, clothes, for the local doctors and care home. So although I really miss seeing my family I am keeping very busy that the weeks go very quickly! Miss you all as well.

Love from
Mrs Cruickshank
