

What is a suffix?

colourful
↑ ↑
root suffix
word

What happens when you add **less** to a root word?

What happens when you add **ful** to a root word?

Today we are going to add **ly** to a root word?

What happens to the adjective when we add **ly**

happy happily

The adjective becomes an adverb.

There are 3 simple rules
Sometimes you just add ly to the root word
glad - gladly

If the root word ends in a y then drop the y and
add an i happy - happily

If the root word ends in le then drop the le and
add ly gentle - gently

Add the suffix **ly** to these words

funny

perfect

brave

angry

What have we been learning about in literacy this week?

Today we are going to write the first part of our non- chronological report.

Read this section and see if you can work out what our success criteria should be.

Unicorns

Introduction

All Unicorns look like a horse but they have a spiral horn that shines brightly on their head. They are incredibly rare but if you are very lucky you may see one when a beautiful double rainbow appears.

Appearance

Most Unicorns have a long, flowing tail, white body and sparkling horn which shines as brightly as the sun. A few, are evil and these are always black. When a Unicorn is really happy its body glows and becomes rainbow coloured.

Today we are going to write our introduction and appearance sections of our report.
