

The suffix ly

What do we do if the word ends in y?

happy →

What do we do if the word ends in e?

gentle →

Write these words putting the suffix
ly at the end

merry →

simple →

happy →

hope →

What do you notice about the last one?

Today we are going to finish our non-chronological report on unicorns. You may need to do the **Habitat** and **Diet** section. If you have time you can do a Do you know?

Read this section and decide what you think has been done well.
(What from the success criteria we used yesterday has been achieved?)

If you finish this section you can draw a small picture with a caption.

Habitat

Most Unicorns live in beautiful, shady forests because it is easy to hide from people. When they are here, they like to drink from magial lakes because these help them with their power to fly. A few prefer caves which are as dark as the night but these are the nasty ones. If you ever see one of these you need to run away quickly.

	Model using the plan to write part of the Habitat section together.
