Times Tables Dice Game (x 4)

Each player will need about a colouring pencil (a different colour for each player). Take it in turns to roll 2 dice. Add both numbers together and multiply this number by **FOUR**. Colour in one of the boxes containing the answer. The winner is the first player to colour 3 boxes in a row (vertically, horizontally or diagonally).

Game board 1

40	48	20	28	32	12	44
20	8	28	40	16	8	36
36	12	20	24	40	44	24
48	36	12	16	28	32	40
20	8	28	24	44	28	20
