

## **Friday lessons**

And finally it's Friday!?

**MATHS** – Today is a fluency lesson for times tables. We are practising those that you are working on at home and learning and playing a dice game.

Follow the power point that has been uploaded. All the instructions are on there.

**ENGLISH** – Today we are going to write the last sections of your non – chronological report on Unicorns. Follow the ppt and see if you can work out, from the section that I have provided, what has been done well. Think about your success criteria from yesterday. Then using your success criteria finish off your report. Don't forget when it is all done to read it out loud to an adult – I bet they will be surprised about how much you know about this illusive creature!

**PSHE** – This week has been anti bullying week. We would like you take a look at the powerpoint and discuss the picture.

Think about these questions

What can you see in the picture

How do you think the children in the picture are feeling?

Why do you think the boy is being left out?

Do you think this might have happened before?

What age do you think they are?

When people bully other people there are quite often a few people involved

The target – this is the person at whom the bullying is aimed

The assistant – this is the person who is actually doing the bullying

The reinforcer – these people support the bully, they might laugh or encourage other people to join in with what is going on.

The outsider – these people ignore the bullying and don't want to get involved.

Think about these two questions

Do you agree that we should all stand against bullying?

What changes do we need to make to unite against bullying?

What can we do as a school to stop bullying?

Then complete the worksheet.

## **READING – 30 MINS**

Read anything! A book, a comic, a recipe book (could you make something out of the book reading the instructions as you go!) Or get an adult to read to you – enjoy a book just for pleasure. That is what reading is all about!
