

### **Wednesday lessons**

Welcome to Wednesday!

**ENGLISH** – Today we are starting Christmas!! We are going to be using our work on prepositions later in the week to describe where things are in Santa's grotto. Today we just want you to draw a picture of what you think might be in his grotto and annotate your picture with noun phrases. Make sure that you draw the pictures so that you will be able to describe where they are later in the week.

**MATHS** –We are practising finding fraction of a number particularly using non- unit fractions. This is where the numerator is more than 1. If you can, have a go at using your division and times table facts but otherwise you can draw circles to represent the denominator.

**RE** – We are looking at Jonah and The Whale and thinking about how God saves Jonah twice. There is a video to watch which you can find on the ppt and then some questions to answer.
