

Left-Luggage Division

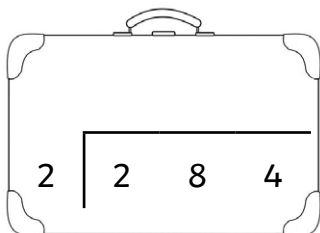

I can use short division to divide three-digit numbers by one-digit numbers.

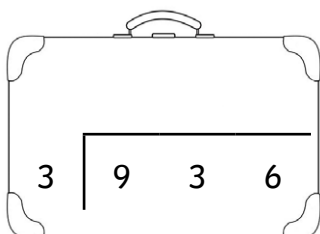

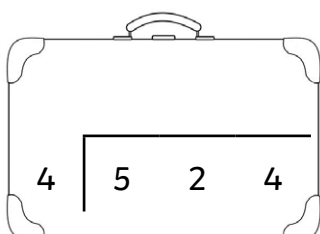

Use the written method of short division to calculate the luggage numbers and match the luggage to the correct bus.

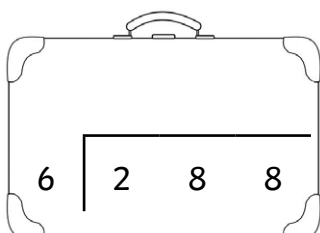

Draw a line from the suitcase to the correct bus when you have worked out the answer.

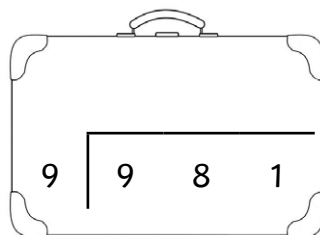

$$\begin{array}{r} 231 \\ 3 \overline{) 693} \end{array}$$

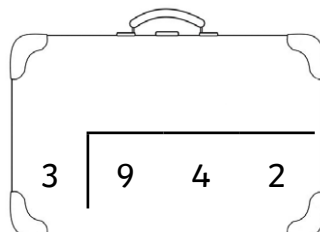

$$\begin{array}{r} \\ 2 \overline{) 284} \end{array}$$

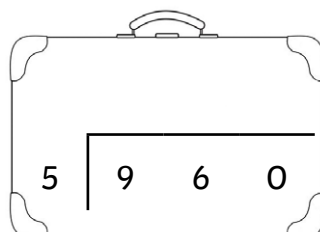

$$\begin{array}{r} \\ 3 \overline{) 936} \end{array}$$

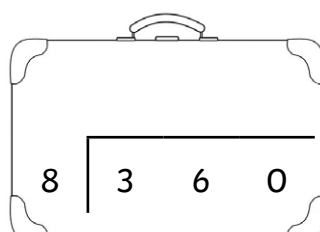

$$\begin{array}{r} \\ 4 \overline{) 524} \end{array}$$

$$\begin{array}{r} \\ 6 \overline{) 288} \end{array}$$

$$\begin{array}{r} \\ 9 \overline{) 981} \end{array}$$

$$\begin{array}{r} \\ 3 \overline{) 942} \end{array}$$

$$\begin{array}{r} \\ 5 \overline{) 960} \end{array}$$

$$\begin{array}{r} \\ 8 \overline{) 360} \end{array}$$

Left-Luggage Division **Answers**

Question	Answer		
	Use the written method of short division to calculate the luggage numbers and match the luggage to the correct bus.		
	Bus 0-100	Bus 100-200	Bus 300-400
	$288 \div 6 = 48$	$284 \div 2 = 142$	$936 \div 3 = 312$
	$360 \div 8 = 45$	$524 \div 4 = 131$	$942 \div 3 = 314$
		$981 \div 9 = 109$	
		$960 \div 5 = 192$	

Left-Luggage Division

I can use short division to divide three-digit numbers by one-digit numbers.

Use the written method of short division to calculate the luggage numbers and match the luggage to the correct bus.

Draw a line from the suitcase to the correct bus when you have worked out the answer.

$$\begin{array}{r} 231r2 \\ 3 \overline{) 695} \end{array}$$

$$\begin{array}{r} \\ 3 \overline{) 969} \end{array}$$

$$\begin{array}{r} \\ 2 \overline{) 784} \end{array}$$

$$\begin{array}{r} \\ 5 \overline{) 490} \end{array}$$

$$\begin{array}{r} \\ 6 \overline{) 298} \end{array}$$

$$\begin{array}{r} \\ 9 \overline{) 781} \end{array}$$

$$\begin{array}{r} \\ 5 \overline{) 893} \end{array}$$

$$\begin{array}{r} \\ 3 \overline{) 997} \end{array}$$

$$\begin{array}{r} \\ 8 \overline{) 572} \end{array}$$

Left-Luggage Division **Answers**

Question	Answer		
	Use the written method of short division to calculate the luggage numbers and match the luggage to the correct bus.		
	Bus 0-100	Bus 100-200	Bus 300-400
	$490 \div 5 = 98$	$893 \div 5 = 178r3$	$969 \div 3 = 323$
	$298 \div 6 = 49r4$		$784 \div 2 = 392$
	$781 \div 9 = 86r7$		$997 \div 3 = 332r1$
	$572 \div 8 = 71r4$		

Left-Luggage Division

I can use short division to divide three-digit numbers by one-digit numbers.

Use the written method of short division to calculate the luggage numbers and match the luggage to the correct bus.

Draw a line from the suitcase to the correct bus when you have worked out the answer.

$$\begin{array}{r} 23 \text{ r}2 \\ 3 \overline{) 695} \end{array}$$

$$\begin{array}{r} \\ 4 \overline{) 926} \end{array}$$

$$\begin{array}{r} \\ 6 \overline{) 784} \end{array}$$

$$\begin{array}{r} \\ 5 \overline{) 494} \end{array}$$

$$\begin{array}{r} \\ 8 \overline{) 367} \end{array}$$

$$\begin{array}{r} \\ 9 \overline{) 778} \end{array}$$

$$\begin{array}{r} \\ 5 \overline{) 802} \end{array}$$

$$\begin{array}{r} \\ 3 \overline{) 998} \end{array}$$

$$\begin{array}{r} \\ 9 \overline{) 898} \end{array}$$

Left-Luggage Division **Answers**

Question	Answer		
	Use the written method of short division to calculate the luggage numbers and match the luggage to the correct bus.		
	Remainders of 2	Remainders of 4	Remainders of 7
	$926 \div 4 = 231r2$	$784 \div 6 = 130r4$	$367 \div 8 = 45r7$
	$802 \div 5 = 160r2$	$494 \div 5 = 98r4$	$898 \div 9 = 99r7$
	$998 \div 3 = 332r2$	$778 \div 9 = 86r4$
