LO: To be able to use what I know about 2-digit numbers to solve a problem.

- I can make different 2-digit numbers.
- I can say how many tens and units/ones are in each number.
- I can explain my thinking.

You have four different digit cards:

1	3	5	6

1. How many **different 2-digit** numbers can you make?
Write them neatly in your book.

2. What is the __smallest__ 2-digit number you can make?

3. What is the **largest** 2-digit number you can make?
