

Dear Elm Class,

I hope you are well.

I have had a busy week working in school with the Key-worker children. We have spent the week focusing on dragons, which has been great fun. We have created our own dragons, used coordinated to create dragon islands and been very creative, modelling clay dragon eyes, papier mache dragon eyes, and there is even a large dragon's nest in the copse now!!!

We are now technically on Easter holidays but we do still want to give you some activities to keep you busy. All the information for the new work set for these 2 weeks are on the website, year 6 page.

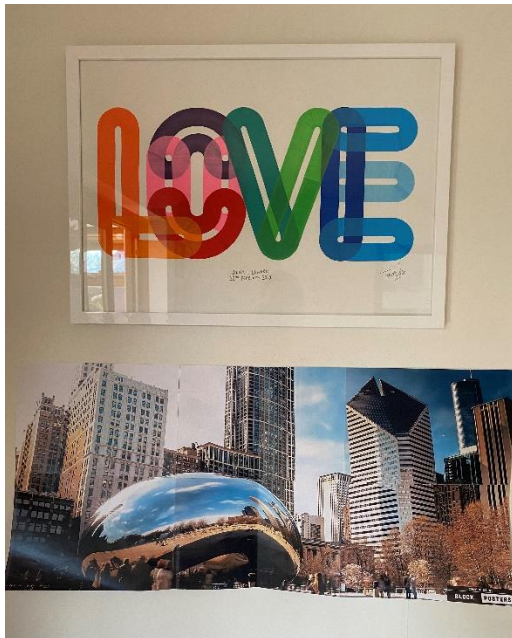

During the Easter time, I thought it would be nice to set you a bit of a challenge.

Find a different object in your house for each letter of the alphabet... How long does it take you?

My answers are below – it took me 8 minutes and 46 seconds!

A = apple	G = golf ball	N = nut	T = trainers	X = x axis on my coordinates island!
B = banana	H = hat	O = orange	U = umbrella	Y = yoghurt
C = can of soup	I = ink pen	P = packet of crisps	V = vase	Z = zip
D = digestive biscuit	J = Jenga	Q = quiz game	W = water bottle	
E = egg	K = kettle	R = ring		
F = flower	L = lemon	S = shirt		
	M = money			

This week would have been the start of my honeymoon. Instead of going on our holiday, the holiday is coming to us! Can you work out which two places we were going to go, based on the posters I have put up in our living room?

Take care Elm Class.

Miss George
