

1st May 2020

Hi Juniper,

I hope you are all well and have had a good week. I have enjoyed reading some of your work and comments on purple mash and enjoy seeing some of the interesting animations you have produced. Lots of you are making really good use of purple mash which is great to see. If you get a chance, it might be worth looking at some of the software on which I have not used in 2dos. For example, you can make your own quizzes and games using 2 Do it Yourself and 3DIY. You can also create your own music using the music and sound software. Finally, you can improve your typing speed and accuracy using 2 type. This is quite useful as it will help some of you make less typing errors in the work you are submitting. I am looking forward to seeing your information texts which you have been working on this week. I have so far seen one via e-mail. I have also seen a really impressive video on Oceans via e-mail showing amazing effort. Well done with all the efforts you are all making! It is good to see so many of you keeping busy and productive.

Next week I have set you some work related to VE day and I hope many of you will mark this important event next Friday when it is a special bank holiday. I am going to have a

special meet up via Zoom with my family so we can all celebrate.

I have kept busy this week doing various tasks for school. I had a meeting via Zoom with the Head of Year 7 from Ashcombe. In the meeting I was telling him about the children going to Ashcombe and how impressed I had been this year with the positive attitude everyone had to learning. I have also continued to do a daily jog and managed to jog 8 miles on one day last week. I hope many of you will have seen my video message by now. There will be another one in a few weeks although it will probably be a little shorter!

I hope you and your families continue to stay safe and well.

Best Wishes,

Mr Tinsley.
