

Year 6

Week starting: 1st June 2020 - WORK FOR MONDAY AND TUESDAY

Hi Year 6,

How are things going? We hope you are all keeping safe and had a lovely half term.

Please continue to use the blogs to communicate with us and one another.

If you want to do extra work there is now some excellent resources and lessons on BBC Bitesize. The link is <https://www.bbc.co.uk/bitesize/dailylessons>

The 3 most important tasks we want you to complete are:

- 1. Comprehension tasks from purple mash and daily reading.**
- 2. English tasks - Roald Dahl comprehension and factfile.**
- 3. Maths tasks**

Doodle Maths - please log onto either Doodle Maths and spend at least 15 mins per day practising before you complete your Maths activity for the day (see below). We are receiving lots of feedback on Doodle Maths from parents and children saying they are loving it! Try to do a couple of the 7aDay tasks - they're a bit like the arithmetic starter you get in a normal Maths lesson.

Purple Mash Tasks - we would like you to complete the tasks that have been set for. These are:

English - complete the reading activities.

Topic - there are a range of activities to complete on Dinosaurs. This is the whole school topic for this week.

Reading:

As well as the Purple Mash tasks you have been set, please try to read for at least 20 minutes per day. This is more important than completing the daily reading tasks on Purple Maths, so if you are short on time please make this a priority.

English :

Monday : Read the comprehension on Roald Dahl and complete the questions. Please choose one of the levels. * is the less challenging and *** is more challenging.

Tuesday : Re-read the comprehension from Monday and then look at the powerpoint on Roald Dahl. Use both of these and the internet to write a factfile / short biography on the life of Roald Dahl.

Maths:

Monday - look at the powerpoint on multiplying and dividing by 10, 100 and 1000. Complete the arithmetic booklets on these topics.

Tuesday - re-visit the powerpoint from Monday. Then use the powerpoint for Tuesday. Choose one of the Reasoning activity sheets and complete.

Topic: we will be setting you optional topic based learning until we go back to school. The topics will be the same for each year group so that children within the same family can work as a team and learn together if they would like to. How much you do together is your choice; it could be you complete the whole project together, with children taking on different roles or that they share smaller tasks together and then decide to present their learning separately in different formats.

This week the whole school topic is called, 'Dinosaurs.' There is a more detailed explanation of how to go about this aspect of learning on the Year 6 Home Learning section of the website.

There are some additional activities in the Year 6 section you may wish to complete.
