You have read two pieces of descriptive writing and commented on how the writing could be improved. Now have a go at writing your own piece of descriptive writing.

Use the picture on the previous slide. Imagine you are in this picture and are walking towards the castle. Describe what you see, hear and feel as you walk through the scene. You could include some speech as you might meet someone as you walk. Think about why you are so keen to get to the castle and what you are going to do when you get there.
