2nd the 3rd Paragraph example

I started St. Paul's in Reception (the year of fun and games) and continued my journey all through to year 6, which is where I am now. All the way through it I have had great fun and **thoroughly enjoyed myself** including: the lovely friends I have made the achievements I have made and the friendship I have developed within my teachers.

One of my most memorable moments was when I met my (now great friend) Jupe on my way to school on my first day of St. Paul's. She was the first friend I made. However, I quickly settled in and discovered many new, wonderful friends within my school. St. Paul's has been very good to me and all of the teachers have taught me incredibly well, as I started off as quite a naughty little pupil! I have - **without a doubt** - changed around with different people throughout my time in the school, but I believe that that is alright, as I then had the chance to work and play with other people.

4th & 5th paragraph example

In Year five, the whole year (including me,) travelled to the sunny Isle of Wight, which was a great amount of fun. My teacher (at that time) was Mr. Hill who unfortunately could not come as his wife was having her baby. However Stowell (our P.E teacher) came with us instead.

I could go on and on about my Primary School, but I think I would need more space to write! I am feeling a little bit nervous about going to the Ashcombe, but at the same time wildly excited!

I know I will miss St.Paul's and all of the lovely memories I have had, but I am sure I will have many more!

Bye, bye St. Paul' s I will miss you!!!

Over to you...

- **REMEMBER:**

- Children and parent will be reading these.
- You will have this year book for many years. I still have mine almost 30 years later!!!

- You want to be proud of it in years to come.
