

## Session 2: Estimating and Measuring

| I am using | my   | print (hand or fo | oot) to |
|------------|------|-------------------|---------|
| measure to | day. |                   |         |

| object | estimate of the length | <u>actual</u> length |
|--------|------------------------|----------------------|
| 1      |                        |                      |
|        |                        |                      |
|        |                        |                      |
| 2      |                        |                      |
|        |                        |                      |
|        |                        |                      |
| 3      |                        |                      |
|        |                        |                      |
|        |                        |                      |
| 4      |                        |                      |
|        |                        |                      |
|        |                        |                      |
| 5      |                        |                      |
|        |                        |                      |
|        |                        |                      |
|        |                        |                      |
