

Year 1

Maths

Monday 15/06/2020

Lesson Aims

- To recognise, find and name a **half** and a **quarter** of an object or shape
- I can recognise, find and name a **half** as one of two equal parts of an object or shape
- I can recognise, find and name a **quarter** as one of two equal parts of an object or shape

Starter

- How many pairs of numbers can you think of that have add up to a total of

- Write them on your whiteboard.
- How can you check that you have got all of the pairs?

Main Teaching

- Today we are going to recap what we know about finding one **half** of an object or shape.
- We are also going to recognise, find and name one **quarter** of different objects and shapes.

Can you explain what a half is?

- **A half is one of two equal parts of a whole object, shape or quantity/ amount.**

**These pictures show two halves
of an object or shape.
Two halves make a whole.**

2 halves make a whole

2 halves make a whole

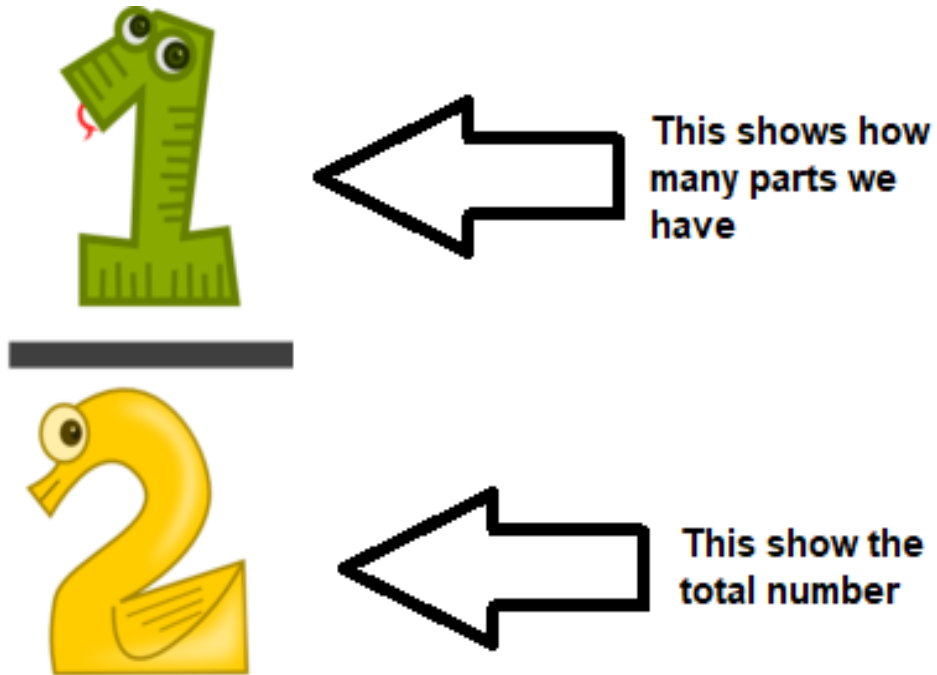

2 halves make a whole

How can one half be written?

What is a **quarter** of an object or shape? Share your ideas.

- A **quarter** is one of **four equal** parts of a **whole** object, shape or quantity.
- We can also call it **one fourth** because the whole is split into 4 equal parts.

4 quarters make a whole

4 quarters make a whole

Whole class activity:

- Look at the sandwich that your teacher has. How can it can be cut into 4 quarters?
- Remember the parts must all be equal sizes to make it fair!

- (Home learners: Ask an adult if you can do this with them. Maybe with your lunch!)

Activity: To find quarters of shapes.

- You have different shapes on your table.
- Which shapes can you fold easily into **quarters**?
- Make sure that you do it carefully so that the 4 quarters or fourths are all the same size!
- Show your folded shapes to your teacher.

Finally...

- Which of these shapes show one quarter **shaded** correctly?
- Explain your reasons.
