

LO: I can find fractions of shape.

SC: I can count how many parts in total (denominator).

I can count/shade how many parts we are looking at (numerator).

I can read and write fractions.

Match the fraction with the shape:

$$\frac{1}{4}$$

$$\frac{1}{5}$$

$$\frac{1}{3}$$

$$\frac{1}{2}$$

Shade these shapes to represent the fraction:

1. Colour $\frac{1}{2}$

2. Colour $\frac{2}{3}$

3. Colour $\frac{4}{5}$

4. Colour $\frac{3}{6}$

5. Colour $\frac{5}{8}$

Write a fraction to show how much of the shape is shaded.
