Elsie baked a cake

Elsie wanted to bake a cake for her Dad's birthday. She knew that her Dad's favourite cake was chocolate so she found a recipe for Super Sticky Chocolate cake. She got the ingredients ready. There was flour, eggs, sugar, butter and chocolate. Elsie greased two large cake tins with butter. Then, she melted the butter and mixed it with the sugar and eggs. Next, she added the flour and used a whisk to mix it together. The whisk made some of the mixture fly out of the bowl and all over Elsie.

"Oh no!" she cried.

Luckily, there was still enough mixture to bake the cake. Elsie watched the cakes rise in the oven until they were ready to take out. She decorated the cakes with sticky chocolate icing and placed Happy Birthday candles on the top. Elsie's Dad loved the cake and said it was the best he'd every had.

Write the numbers 1-5 in the boxes to put these sentences from the story in the correct order.

Elsie melted the butter and mixed it with the sugar and eggs.

Elsie's Dad thought the cake was the best he had ever had.

Elsie found a recipe for Super Sticky Chocolate cake.

The mixture flew out of the bowl and went all over Elsie.

Elsie got all of the ingredients ready.
