LO: To use a number line to count back for subtraction

- I can use my number line to solve subtraction.

$$12 - 4 =$$

$$19 - 11 =$$

$$15 - 8 =$$

$$17 - 7 =$$

$$11 - 6 =$$

$$13 - 9 =$$

$$20 - 9 =$$

$$10 - 3 =$$

Now try these. Think carefully about what you need to do!

$$15 - \bigcirc = 11$$

$$8 - \bigcirc = 5$$
