

End of term ideas

Year 1
20th July 2020

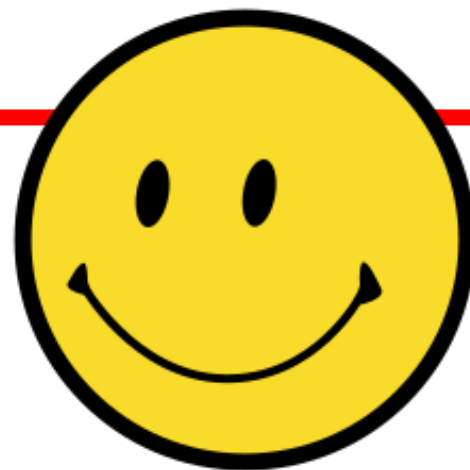

You have all been real SUPERSTARS with your home learning. We are very proud of you.

We have decided that we need some fun for the end of term so here are a few activities for you to complete over the next couple of days if you would like to.

With love,

Mrs Cruickshank, Mrs Read, Miss Turner and Mrs Cole
XX

Please try some of these ideas if you would like.

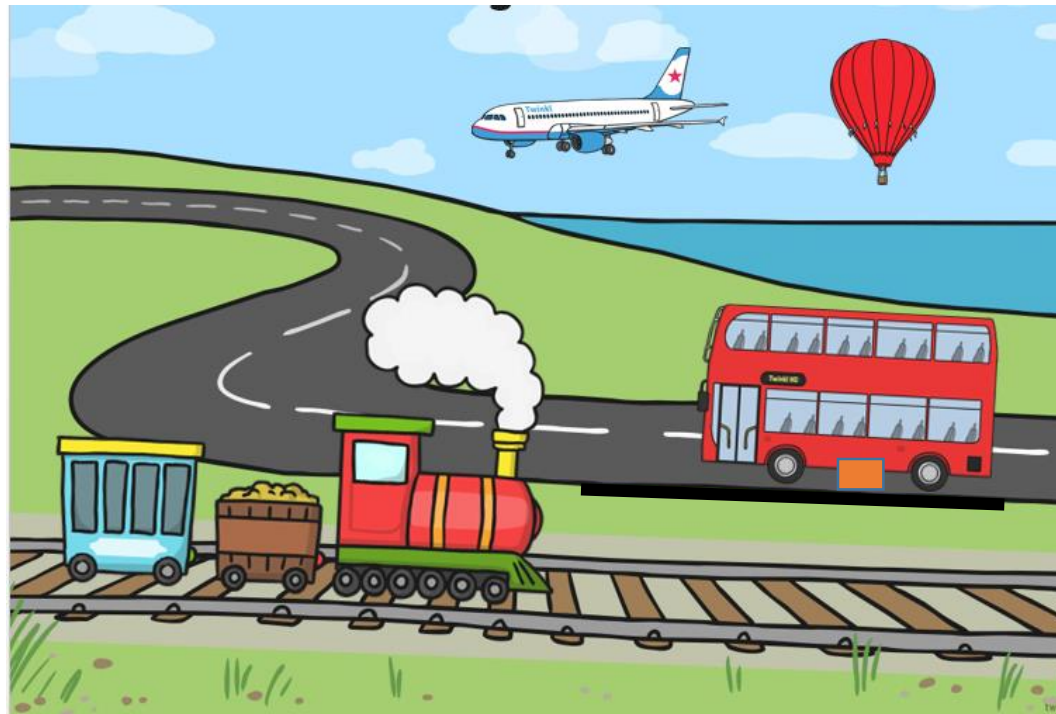

We have been learning about different types of transport so you could

- make a kite that flies
- design your dream vehicle, what would it do, where would it take you? Is it magical?
- make a vehicle from empty boxes
- take a transport survey (count the different types of vehicle that pass you – keep a tally. A tally counts in 5s like this. **||||**)
Which type of vehicle did you see most of? Which the least?
There is a recording sheet in the files.

Draw a picture which shows different forms of transport on land, sea and sky. Can you make one form of transport move in your picture? (Remember our DT moving pictures earlier this year.) The bus in this picture is on a slider with a slot in the picture to move it along.

- make a plane from a wooden peg and lolly sticks

We have really enjoyed this year with you all.

Keep safe over the Summer and we look forward to seeing you in school in September when you are in Year 2.

**July
Year 1**

**September
Year 2**
