

The trees are beginning to change colour as we move into Autumn. They are turning at the moment and will soon be truly Autumn colours. This morning when we were in the copse we collected some sticks and leaves.

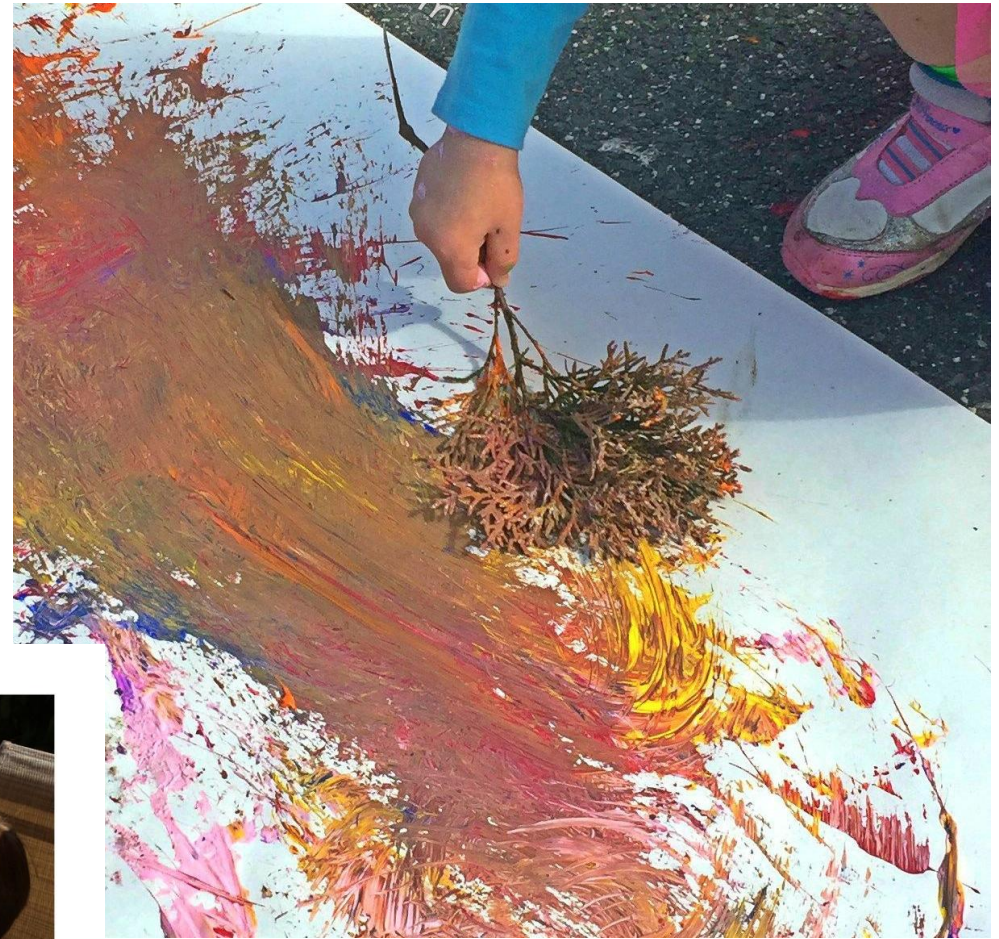

What do you think these are?

# Paintbrushes!

We are going to use what we collected to make marks with our paint.

We are going to try to paint Autumn trees after we have found out what marks we can make with our finds.

- We will use the sticks to paint the tree trunks and branches and the leaves to be leaves!
