

# Greater Than, Less Than or Equal To?

## You will need:

- 0-30 number cards (included)
- $<$   $>$   $=$  die (included)
- Paper
- Pencil

## Instructions for playing the game:

- Cut out the die and stick the net together.
- Cut out the number cards.
- Lay the number cards face down on the table.
- Take it in turns to choose a card from the table.
- When you have chosen a number write it on your piece of paper.
- Next roll the die, it will give you a symbol ( $<$   $>$  or  $=$ ).
- You then need to write an addition or subtraction statement that completes your number sentence.

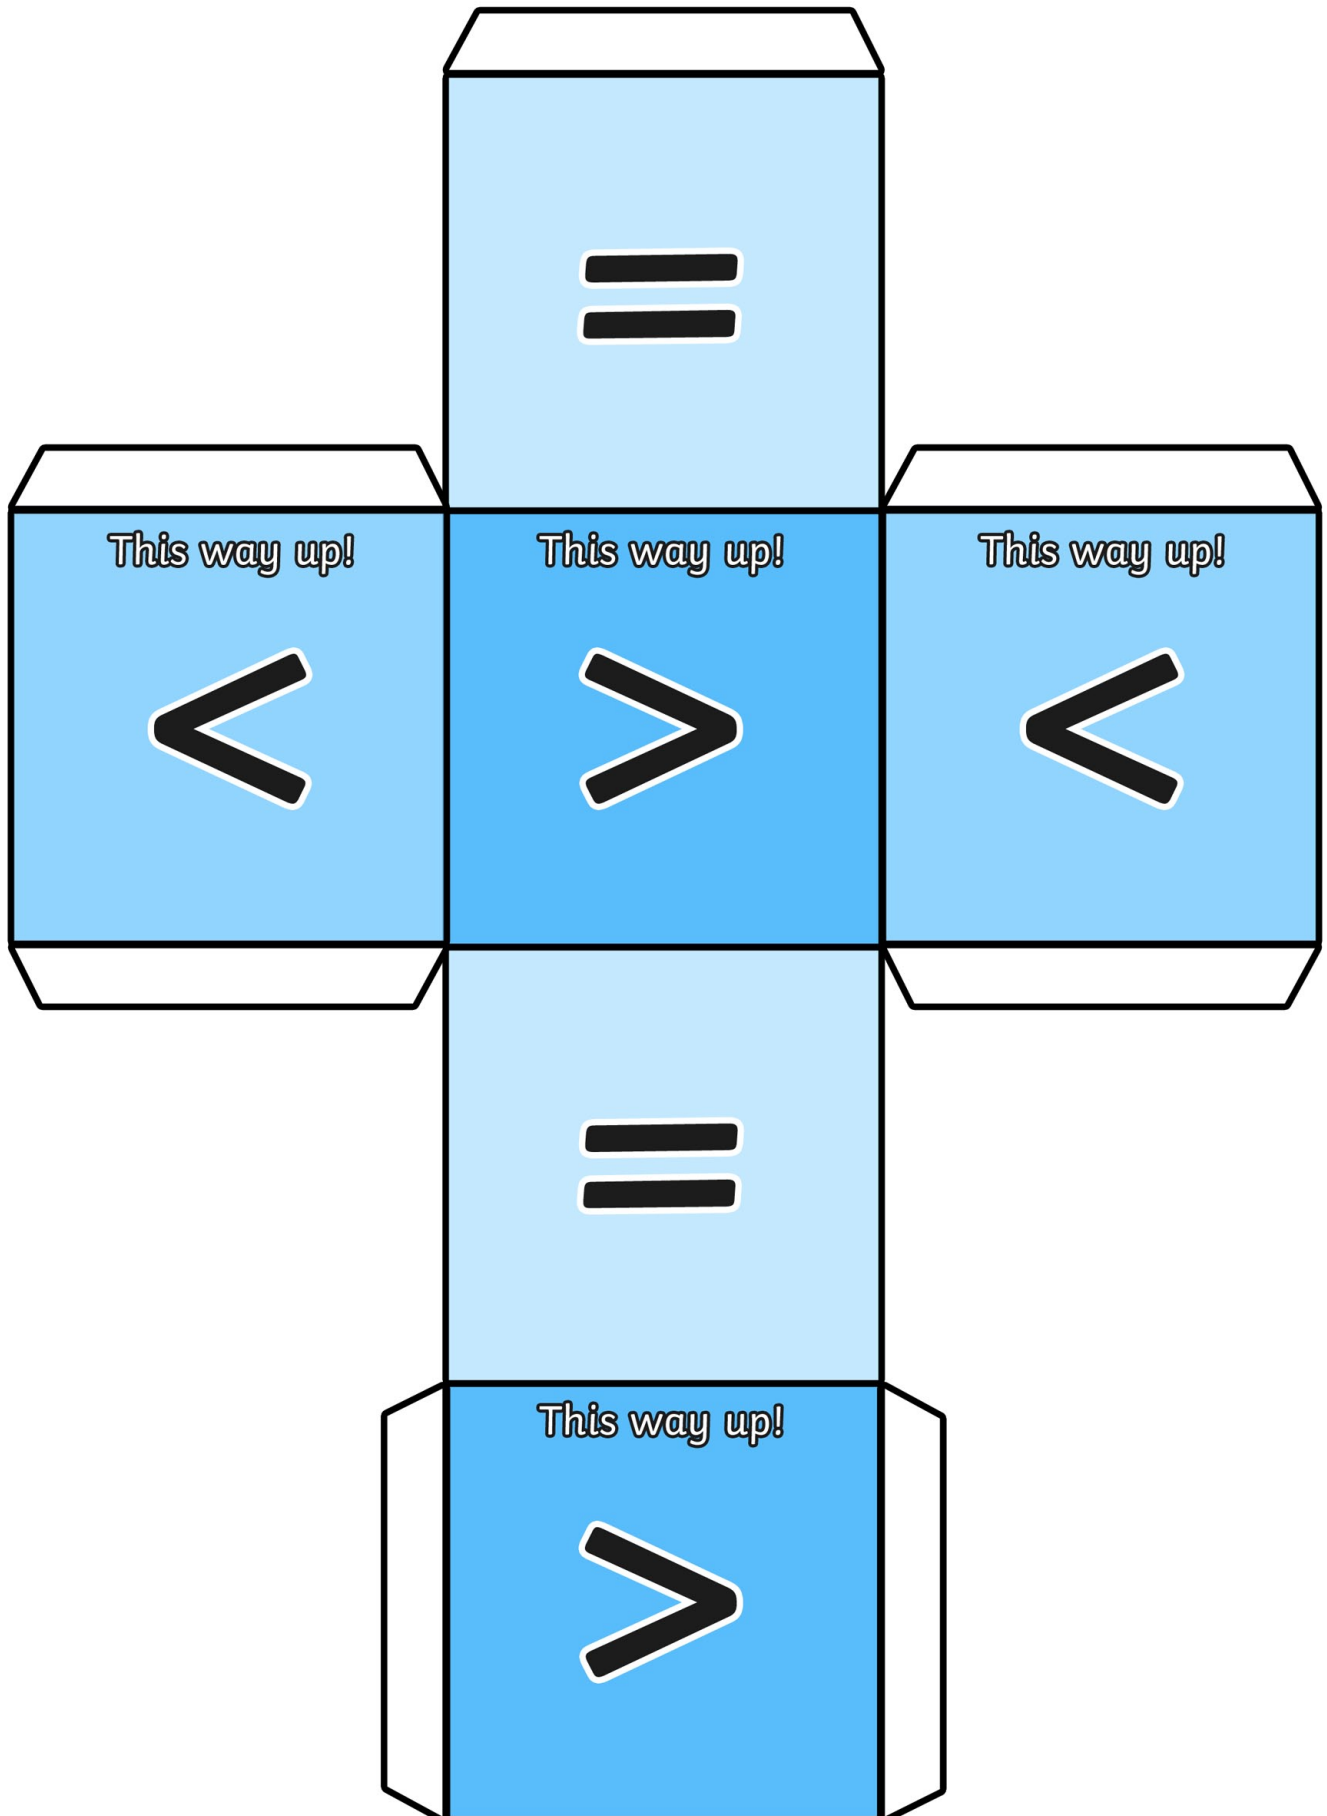

## Examples:

Number card chosen	Symbol rolled using the die	Number sentence written next to it
15	$<$	$20 - 4$
23	$=$	$15 + 8$
9	$>$	$17 - 9$

## Extension:

This game can be extended by asking the children to write as many number sentences as they can linked to their chosen number card and the symbol rolled.
