This week we will be looking at:
INFERENCE

Year 2
Reading

What is inference?

Do you remember inference Iggy?
He is there to help you to **hunt for clues** in the text.

These clues might help you to work out how someone is feeling, why somebody did something or why something is happening.
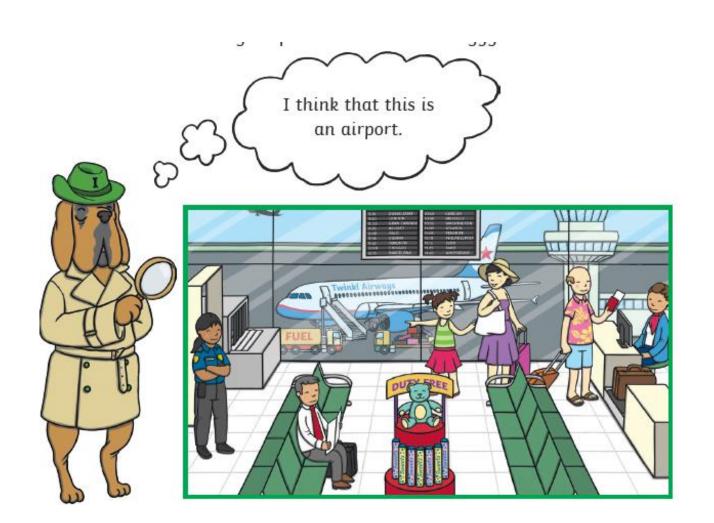

The two types of question that Inference Iggy likes to ask most are:
'why?' and **'how do you know?'**

Iggy thinks…

Iggy has spotted some clues in the picture.
Explain what makes Iggy think this picture is of an airport.

All about me...

Carefully, have a look at the picture.
What can you see?
We can often find out a lot about a person by what they keep in their bag.

I can see a pair of glasses. This must mean that the person who owns this bag needs help to be able to see.

All about me...

The evidence in the bag is what you can see but you can make inferences about the person based on what you know about these items.

All about me...

Talk about the following questions:

Why might a person be carrying a book in their bag?

What might somebody use a set of keys for?

Why does the person have a train ticket in their bag?

Guess the gift

You are going to use your inference skills to infer who the gift might be for.

I think the gift is for……………….. because………..

Possible answers…

I think the gift is for someone who is loved because it has hearts on it.
I think the gift might be for a child because children like teddies
